

STEP 2**TIP SHEET**

Works on all emulsions and capillary films

STRIP•e•doo® CONCENTRATE

Emulsion Remover

Franmar's **STRIP•e•doo® Concentrate Emulsion Remover** is a money-saving, eco-friendly concentrated formula with a built-in degreaser. It is specifically designed to penetrate and dissolve all types of emulsion and capillary film without weakening the mesh. Like all Franmar products, it is safer, effective and 100% biodegradable.

Dilution: For best results, dilute 1:19 with water (1 quart makes 5 gallons).

Directions:

1. Wet screen and pour or spray a small amount on both sides of screen.
2. Scrub both sides thoroughly with a dedicated Biggee™ scrub pad.
3. Let product work for 30-60 seconds and scrub both sides again.
4. Rinse both sides of screen clean with pressured water.

Usage Tips:

- Do not allow product to dry on on the emulsion.
- Use a spray bottle for better distribution of product.
- Additional degreasing is needed when using high mesh counts or halftones.
- Store in a cool, dry place away from direct sunlight.

MORE INFORMATION:

Precautions: Dispose of waste according to local regulations. Avoid eye contact. If product contacts eye, rinse thoroughly with water. Call a physician if irritation persists. If swallowed do not induce vomiting. Call a physician. Nitrile or neoprene gloves are recommended for sensitive skin.
