

STEP 1

AQUA-WASH™

TIP SHEET

WATER-BASED INK REMOVER

Safe, Easy Removal of Dried Water-Based Inks

Made from soybeans • 100% Biodegradable • Non-Toxic and Non-Caustic

Franmar's Water-Based Ink Remover is exclusively made for screen printers that print with water based inks. **Water-Based Ink Remover** will clean all types of today's water-based inks and even works as a screen opener while still on the press. **Water-Based Ink Remover** delivers all the same great benefits of Franmar's line of screen cleaners developed through the last 30 years, including virtually no odor, 100% biodegradable, drain safe, and no caustics. **Water-Based Ink Remover** money saving benefits include quicker cleaning times, saving screens that could not previously be cleaned, with minimal mesh ghosting.

Directions

- 1** Spray or pour a small amount onto screen.
- 2** Scrub screen with dedicated Biggee™ pad or nylon brush.
- 3** Repeat on back of screen image.
- 4** Rinse both sides of screen clean with pressured water.

Note: Do not use to keep water-based inks wet in the screen for continuous printing.

Usage Tips

- Less is more! Control amount by using a spray bottle. Six or seven (6-7) sprays is all that's generally needed to clean a standard size screen.
- To help soften and remove dried water-based inks, spray Water-Based Ink Remover on screen, agitate with Biggee pad, and let sit for a few minutes.
- Pressure washing facilitates a clean screen.
