

MagnaPrint® Foil Adhesive

Printable water-based foil adhesive

MagnaPrint Foil Adhesive is a ready to use adhesive for use in the application of foil onto textiles.

MagnaPrint Foil Adhesive is a water-based, PVC and Phthalate free adhesive giving excellent wash fastness.

MagnaPrint Foil Adhesive can be used in conjunction with **MagnaPrint Foilblocker**.

Application

MagnaPrint Foil Adhesive can be used as a standalone print, or as part of a larger design. If using multiple colours, **MagnaPrint Foil Adhesive** should be printed in the last position. An even ink deposit is required to ensure that there is sufficient adhesive in contact with the foil when laminating.

Once printed, cure for 1½ minutes at 160°C - 165°C (320°F - 330°F).

Foil Application: Apply the foil to the adhesive using a Heat Press at 165°C (330°F) for 10 - 12 seconds, 6 Bar pressure. The fabric should be allowed to cool before removing the foil release paper.

SPECIFICATION

FABRIC TYPES

Cotton / Poly Cotton blends

MESH

34 - 62T (86 - 158)

SQUEEGEE

70—75° Shore, Square Edge Squeegee

STENCIL

Water resistant emulsion

CURE TEMPERATURE

1.5 minutes at 160°C - 165°C (320°F - 330°F)

ADDITIVES

Retardant Gel Conc

STORAGE

In cool place properly closed: >5°C (40°F) <25°C (77°F)

HEALTH & SAFETY

MSDS available upon request

CLEAN UP

Wash off screen using water and mild detergent
